## PROFILE

I am a full stack web developer focused on creating seamless user experiences, with expertise in both front-end and back-end development. I am eager to explore blockchain technology to improve security and transparency in digital interactions. Committed to continuous learning and collaboration, I aim to contribute to impactful projects.

## WORK EXPERIENCE

**Venros** 2024-2025  
Web Developer

- Integrated third-party APIs and services to enhance application functionality, including payment gateways, authentication systems, and cloud storage solutions..
- Developed and maintained responsive web applications, ensuring optimal performance and user experience across various devices and browsers.

**TEAMDAO** 2022-2025  
Web3 & Full Stack Developer

- Developed smart contracts that enabled automated execution of business processes with minimal manual intervention
- Develop Telegram Trading Bots and Ai Agents for trading
- Led the development of multiple web applications from concept to deployment utilizing a tech stack including HTML5, CSS3, JavaScript, React/NextJs, Node.js, and MongoDB.
- Designed and implemented RESTful APIs, enabling seamless communication between front-end and back-end systems for dynamic data retrieval and manipulation.

**Prince Hypermart** 2020-2021  
Bagger

- Utilized different bag sizes to ensure products were packed safely, while minimizing waste
- Maintained a clean and organized checkout area to ensure a pleasant customer experience
